

2nd Hacks in Taiwan Conference

<http://hitcon.org/>

Hacks in Taiwan 2006

July 15-16, Taipei, Taiwan

Call for Papers

Organization

CHROOT is a non-profit group dedicated to information security research. We are organizing the 2nd annual HIT conference in Taipei, Taiwan. And now we are very pleased to announce the Call for Papers (CfP) for HIT2006.

Conference website: <http://hitcon.org/>

CHROOT website: <http://www.chroot.org/>

Topics

Possible topics for submission include, but are not limited to:

- **Exploit techniques**
- **Honeypot**
- **Virus and antivirus**
- **Reversing engineering**
- **Audit software vulnerabilities**
- **Backdoors and rootkits**
- **Web security and web application firewall**
- **Database security**
- **Firewall technologies**
- **Intrusion detection and prevention**
- **Techniques for developing secure systems**
- **Covert channels**

Submission

Paper due date is **June 30, 2006**. Each paper is typically the focus of **50 minutes** of presentation and discussion. Accepted papers will be presented at the conference. Please send papers to hit2006@hitcon.org.

Submissions must be in **PDF format**. Please make sure to include the **topic, your name, names of collaborators, personal information (e-mail)** on the first page of paper.

The submissions will not be published without your permission.

Date and Location

The conference will be held on **July 15-16, 2006** in Taipei at:

Digital Learning Center of Continuing Education Chinese Culture University.

No.127, Yanping S. Rd., Jhongjheng District, Taipei City, Taiwan.

Directions:

0day Exploit Demonstration

We are planning a 0day exploit demonstration show. The session is the ideal venue to announce and introduce 0day vulnerabilities and exploits that you have discovered.

To submit a proof of concept, please send an e-mail, including abstract, description, or snapshot, to: hit2006@hitcon.org.

Those who submitted a PoC will receive a free admission to HIT2006 and an opportunity to present their research at the conference.
